The Company is an internally managed Listed Investment Company. The Company's principal activities are to make investments in listed and unlisted securities.

#### 2. GENERAL INFORMATION BASIS OF PREPARATION

The condensed interim financial statements (**interim financial statements**) of the Company are for the six (6) months ended 30 June 2022 and are presented in Australian Dollars (\$AUD), which is the functional currency of NGE Capital Limited. These general purpose interim financial statements have been prepared in accordance with the requirements of the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards, and should be read in conjunction with the financial statements for the year ended 31 December 2021\* and any public announcements made by the Company during the half-year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the *Corporations Act 2001*.

The interim financial statements have been approved and authorised for issue by the Board of Directors on 12 August 2022.

\*The is the first period in which the Company has produced non-consolidated financial statements. All references to the financial statements for the year ended 31 December 2021 refer to the consolidated financial statements of the consolidated entity being NGE and its controlled entities.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

With the exceptions outlined below, the interim financial statements have been prepared in accordance with the same accounting policies adopted in the Company's last annual financial statements for the year ended 31 December 2021.

The accounting policies have been applied consistently throughout the Company for purposes of preparation of these interim financial statements.

#### Other pronouncements

Other accounting pronouncements which have become effective from 1 January 2022 and have been adopted do not have a significant impact on the Company's financial results or position.

#### 4. ESTIMATES

When preparing the interim financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgements, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in the Company's last annual financial statements for the year ended 31 December 2021.

The STI establishes a pool of funds available for payment to members of the investment team and is calculated by reference to the increase in NTA before tax over the year (**Performance Fee**). The total value of the pool for distribution is equal to a 10.0% share of the growth in NTA before tax (adjusted for capital raisings and share buy-backs), subject to a high water mark. Subject to exceeding the high water mark, the Performance Fee will be paid annually in arrears.

- A deferred tax asset of \$2.29 million (potential tax benefit at 25.0% of \$9.16 million) has been recognised on unused Australian tax losses of the Company. The deferred tax asset was recognised based on the following management judgements:
  - i) The Company has produced a cumulative profit before income tax of \$16.276 million since becoming a LIC on 30 November 2016; and
  - ii) By applying the average Australian and International share returns since 1970 of 9.95% p.a. over a 4-year investment time horizon, the Board considers it is probable that sufficient future taxable profits will be available to offset the amount of the deferred tax asset.
- This represents total realised tax losses and capital losses which are unused and have not been recognised as a deferred tax asset.
- The taxation benefits will only be obtained if:
  - i) The Company derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deduction for the loss to be realised;
  - ii) The Company continues to comply with the conditions for deductibility imposed by law and, in particular, as long as NGE continues to satisfy the continuity of ownership test as set out in Divisions 165 and 166 of the *Income Tax Assessment Act 1997* (Cth); and
  - iii) No changes in tax legislation adversely affect the Company in realising the benefits from the deductions for the loss.

For the half-year ended 30 June 2022

#### 9. RELATED PARTY TRANSACTION

There were no related party transactions in the period apart from remuneration paid to directors.

#### 10. SEGMENT REPORTING

#### Basis of accounting for purposes of reporting by operating segments

Unless stated otherwise, all amounts reported to the Board of Directors as the chief decision maker with respect to operating segments are determined in accordance with accounting policies that are consistent with those adopted in the annual financial statements of the Company.

The Company's principal activities are those of a Listed Investment Company and therefore identifies only one corporate reportable segment. The results of this segment are the same as the Company results.

#### 11. FAIR VALUE MEASUREMENT

The Company measures and recognises the following assets at fair value on a recurring basis:

• Financial assets held at fair value through profit or loss

There are no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

#### Fair value hierarchy

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). These include quoted prices for similar assets or liabilities in active markets.
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The table below presents the financial assets (by class) measured and recognised at fair value at 30 June 2022.

	Level 1	Level 2	Level 3	Total
As at 30 June 2022	\$'000	\$'000	\$'000	\$'000
Financial Assets at fair value through profit or loss				
Listed equity securities	21,560	-	-	21,560
Total Financial Assets at fair value through profit or loss	21,560	-	-	21,560
As at 31 December 2021				
Financial Assets at fair value through profit or loss				
Listed equity securities	22,551	-	-	22,551
Total Financial Assets at fair value through profit or loss	22,551	-	-	22,551

For the half-year ended 30 June 2022

#### 11. FAIR VALUE MEASUREMENT (CONTINUED)

#### Fair value hierarchy (continued)

Assets in the Company's investment portfolio are valued in accordance with the Company's published Investment Valuation policy, a summary of which is provided below. This summary does not purport to be complete, and readers should refer to the full Investment Valuation Policy which is available on the Company's website.

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

#### LEVEL 1

The fair value of investments that are traded in an active market (for example, listed equities) is determined using the last traded quoted price in an active market. As at 30 June 2022, the Company had \$21,560,000 (31 December 2021: \$22,551,000) financial assets held at fair value through profit or loss included in Level 1. As at 30 June 2022 the Company had \$ Nil (31 December 2021: \$ Nil) financial liabilities held at fair value through profit or loss included in Level 1.

#### LEVEL 2

The fair value of investments that are not traded in an active market (for example, unlisted securities) is determined by reference to quoted prices for similar assets or liabilities in active markets. As at 30 June 2022, the Company had \$ Nil (31 December 2021: \$ Nil) investments in Level 2.

#### LEVEL 3

If one or more of the significant inputs is not based on observable market data, the investment is included in Level 3. The fair value of unlisted securities for the first 12 months of ownership is usually valued at the cost of the investment, unless there is an apparent change in circumstances which would indicate the need for a new valuation. Such a circumstance may include observing the price from a recent transaction of an investment, provided the relevant transaction occurred sufficiently close to the measurement date (usually within 12 months).

In the absence of a recent transaction providing a reliable estimate, the fair value of unlisted direct securities will be calculated with reference to appropriate valuation methods including, but not limited to, an assessment of the investment's cash flows, comparable transactions, and comparable listed assets.

As at 30 June 2022, the Company had \$ Nil (31 December 2021: \$ Nil) of investments held at fair value through profit or loss included in Level 3.

For the half-year ended 30 June 2022

#### Directors' responsibility for the half-year financial report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 30 June 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
